

Oil Gone

Oil Gone

A heavy duty degreaser to remove oil and grease from all porous and non porous industrial flooring

Benefits

- **Oil Gone:** Solvent free degreaser.
- **Oil Gone:** Biodegradable and non toxic.
- **Oil Gone:** Non Flammable
- **Oil Gone:** Non abrasive.
- **Oil Gone:** Highly active liquid that removes motor oil, grease and heavy oils from driveways, garages and walkways. Especially effective on diesel spills.
- **Oil Gone:** Penetrates beneath the surface into porous concrete, asphalt and masonry. Penetrates deeply into the pores of the concrete loosening and lifting impregnated greasy soils.
- **Oil Gone:** Meets the need of all users for cleaning or degreasing, to substitute detergents or dangerous solvents when toxicological criteria should be improved and cleaning methods require the use of non flammable safe degreasers.

Application

Will remove oily stains from cement, stucco, brick and stone. Excellent for removing surface oil and grease build up from machinery, tools, farm equipment, motors, engines, patio grills, motorcycles, bikes, etc.

Dilute Oil Gone up to 1/4 to 1/10. Immerse, swab or scrub the item to be cleaned. After cleaning hose down with water, preferable under pressure.
